

# Australia & New Zealand

## Our Regions Contributions

to CHI 2025 | Yokohoma, Japan

Oceania CHI is a newly established initiative of the Human-Computer Interaction (HCI) community in the Australia and New Zealand region, collectively referred to as Oceania. This initiative aims to strengthen regional collaboration, foster innovation, and promote the growth of HCI research and practice across Oceania.

## **Highlights of Contributions from Australian and New Zealand Institutions to CHI 2025**

## Monash University

has contributed  
24 Papers,  
10 Late-Breaking Works,  
2 SIG,  
4 Video Showcase,  
2 Workshops,  
1 Alt CHI Paper and 1 Journal Paper.

# The University of Melbourne

has contributed  
11 Papers,  
8 Late-Breaking Works,  
2 Workshops,  
1 Alt CHI Paper,  
1 Panel,  
1 In Person Doctoral Consortium.

THE UNIVERSITY OF  
**SYDNEY**

See on CHI Program

# The University of Sydney

has contributed

19 Papers,  
11 Late-Breaking Works,  
1 Video Showcase,  
5 Workshops,  
2 Alt CHI Papers.

THE UNIVERSITY  
OF QUEENSLAND  
AUSTRALIA

See on CHI Program

# The University of Queensland

has contributed

11 Papers,  
4 Late-Breaking Works,  
2 Workshops,  
2 Journal Papers,  
1 Case Study.

## RMIT University

has contributed

4 Papers,  
3 Late-Breaking Works,  
1 Panel.

Website:

<http://rmit.edu.au/about/schools-colleges/computing-technologies>

See on CHI Program

# The University of Auckland

has contributed

4 Papers,  
1 Late-Breaking Work,  
1 Video Showcase,  
1 Case Study.

# Australasian Researchers in Interactive Virtual Environments

*Australasian Researchers in Interactive Virtual Environments*

Connect with the largest academic network of AR/VR researchers

- A collection of eight leading Australian and New Zealand Universities
- Over 250 researchers from all areas of AR/VR/XR/MR
- One stop shop for research collaboration

Join with us in a number of ways

- Industry project sponsorship
- Internships and visiting academics
- Joint research and co-authoring publications
